A Class Action Suit against Health Authorities

Reiner Fuellmich, is a lawyer with over two decades of experience challenging large corporations for illegal and unethical practices. Now he has turned his attention to the brazen fraud committed by a relatively small international syndicate of criminals posing as health professionals.

In this video, he summarizes the facts that will become the core of a class-action suit against these people and the prestigious organizations they control. Reading from what sounds like the opening statement to the jury, Fuellmich brings together in one presentation virtually every major issue that lurks behind the controversies over testing, distancing, masking, and contact tracing.

There is not much to look at in this video except a man reading his notes and, for that reason, you may want to consider this as, essentially, an audio recording. However, if you imagine in your mind that this is the narration for a documentary film loaded with images, documents, and video clips, you will realize that it is a comprehensive and fascinating overview of what is behind the pandemic that never happened and what the motive is for pretending like it did. 2020 Oct 4 –
