800,000 children a year in the United States go missing, many of them being sexually trafficked through pedophilia networks where the children suffer unimaginable horrors such as Satanic ritual abuse.

This number is comprised of documented cases of children gone missing, and does not include children who are born and bred into pedophilia networks and have no birth certificates, or undocumented immigrant children who come across the borders.

Worldwide, the number is close to 8 million children missing and being sexually trafficked.

Such is the scope of the problem that was reported earlier this year (2018) in Westminster, London by *The International Tribunal for Natural Justice (ITNJ)*, as the court convened over a 3-day period to launch their *Judicial Commission of Inquiry into Human Trafficking and Child Sex Abuse*.

The Judicial Commission is comprised of world leaders who have been involved in fighting child sex trafficking for years, and includes intelligence officers, politicians, legal scholars, and many others. (Website: <https://commission.itnj.org>)

The International Tribunal was formed because most of the world's government bodies today have been corrupted and no longer represent the people, but instead serve the interest of private corporations, and as such, justice is seldom found in most government judicial courts around the world today to stop such a heinous crime as child sex trafficking.

In fact, the child sex trafficking network today is actually facilitated by the rich and powerful, whose influence reaches into the political and judicial branches of society.

From the INTJ report:

The ITNJ initiative has arisen as a response to the disregard for the rule of law exhibited by (alleged) public officials, corporate directors, and 'world leaders' who have deliberately privatized and weaponized the governments of the world against their own people.

It is the culmination of years of endeavour and research on the part of many people from a diverse set of backgrounds dedicated to safeguarding a viable future for human kind. It is recognized that we the people must take responsibility in holding government to account when it violates basic human rights and natural law.

Today we know conclusively that many of these activities are being facilitated by politically and financially powerful individuals, government, and corporate organizations who perennially avoid being brought to account for their actions due to their affluence and influence.

Included in the court proceedings of the first Judicial Commission of the Tribunal were powerful testimonies from victims who suffered unimaginable horrors as children being sexually abused and trafficked through this powerful world-wide pedophilia network that sexually trafficks children, a human trafficking network that brings in more revenue than the trafficking of weapons and drugs.

During the opening Plenary Session, Chief Counsel Robert David Steele, a former CIA officer, gave perhaps the best summary of the purpose of Tribunal's Judicial Commission, which has been condensed into a 15 minute video:

A partial transcript:

As a parent and as a patriot I have been outraged for some time by the clear and present danger to society of pedopredation (pedophilia or paedophilia).

I recognize now that child torture, child murder, and child organ harvesting is an 'accepted' practice at the highest levels of government, the NGO and multinational corporate sector, as well as throughout academic institutions and civil society.

This scourge persists because it is allowed to exist by the complicit authorities.

As a former spy and pioneer for Open Source Intelligence (OSINT) I have worked with INTERPOL, EUROPOL, Scotland Yard, the FBI, and the national intelligence and law enforcement services or their representatives from over 66 countries.

What I have found, without exception, is that they are all staffed by good people trapped in bad systems – systems that are not allowed to properly address this scourge – the multi-generational crime against humanity known as pedophilia.

Pedophilia – a 'love for children' – is not an accurate term. There is no love for children manifest in any aspect of child slavery, sexual abuse, torture, murder, or body harvesting.

For this reason the inaugural seating of the Commission of Inquiry into Human Trafficking & Child Sex Abuse, at the behest of ITNJ Commissioner Carine Hutsebaut (a criminologist and psychotherapist) the term 'Pedopredation,' has been designated as a more appropriate term, along with the term 'pedosexual,' for that considerable sub-set abuses of children outside the Satanic ritual network.

It is vital to note that many organizations that started out with the best of intentions – from the Boy Scouts to the day care centers to United Nations assistance and development groups to Oxfam as the most recent example – appear to have been infiltrated by pedopredators.

By virtue of being in daily contact with the most vulnerable members of society, our children, many of the mandated organizations have, over time, attracted numerous pedopredators to their ranks, and been compromised by their lack of proper vetting processes, as well as also turning a deliberate blind eye to the transgressions of staff.

This need not be so if governments were honest and counterintelligence were to be exercised. It appears to be a matter of policy at the highest levels of global leadership to turn a blind eye to pedopredation and pedosexuality.

It appears that pedopredation – including the attendant torture and murder of infants to produce adrenalized blood via ritual Satanic abuse – is in some cases considered an elite 'privilege' whereupon these echelons are permitted to practice such perversity with impunity.

There are two additional causes for alarm.

First, there appears to be a deliberate campaign by the elite to infect local, state (province) and national police, prosecutors, and judges – from Australia to Zimbabwe – with a 'taste' for pedosexuality.

It is used as both an initiation rite into the Deep State and Shadow Government, and as a basis for blackmail.

Worse, we are now seeing two terrible trends: one toward abusing and murdering children before they learn to speak (they cannot bear witness); and the other, perhaps brought back by US forces from Afghanistan, the combination of war dogs and toddlers in a devastating combination of child rape and bestiality – dogs raping children for videos to be sold.

Add to this the growing market in fetuses, the most prized being those delivered on the floor as part of a Satanic ritual, and one has an inkling of the greatest evil on the planet.

Second, it has become clear from our early inquiries with ample documentation, that both the family courts and the insolvency courts are being used to strip children from families to convert the children into a commodity that can be sold for cash, and are also being used to strip assets from wealthy individuals who are not part of the Deep State network.

Governments are complicit in child and asset stripping, which would not occur if registrars, lawyers (barristers), and judges were held accountable. False claims and documents abound, and in their tolerated existence, challenge the legitimacy of the government.

ENOUGH! The purpose of the Commission is to do what has not been done before: to document the actual totality of missing children each year (preliminary estimates yet to be documented are eight million a year, or 22,000 a day); and also to document what happens to these children once they are ingested into the local to global pedopredation network of networks.

The average lifespan of a child once in the pedopredation (pedophilia or paedophilia) system is estimated by some to be two years — those being groomed for 'leadership' roles that perpetuate pedosexuality at all levels live much longer.
