Legally Kidnapped: The Case Against Child Protective Services

“The state must declare the child to be the most precious treasure of the people. As long as the government is perceived as working for the benefit of the children, the people will happily endure almost any curtailment of liberty and almost any deprivation.”

Legally Kidnapped: The Case Against Child Protective Services exposes the dangerous tactics and overt corruption that was witnessed by a CPS investigator

Through keen insight, analysis, war stories, and interviews with attorneys & judges, Carlos Morales speaks truth to power in this shocking book. Unlike anything ever published, he breaks down exactly what families should do to protect themselves from this monolithic agency that has destroyed the lives of children & parents. Parents across the country have already used his legal recommendations and saved not only thousands of dollars on lawyer fees, but also protected the future of their family. It is imperative that people understand Child Protective Services in order to save their families, and this book accomplishes this in a gripping and thought provoking manner.
